SHUBHAM BHOSALE

Data Analyst

Navi Mumbai, Maharashtra, India | +91-8850452049 | shubhambhosle556@gmail.com | LinkedIn| GitHub

PROFESSIONAL SUMMARY

Results-driven Data Analyst with a strong foundation in data collection, cleaning, exploratory data analysis, and dashboard development. Proficient in Python, SQL, Excel, and Power BI with hands-on experience building KPI dashboards and generating business insights. Adept at collaborating with cross-functional teams and communicating complex findings to non-technical stakeholders. Eager to contribute to data-driven decision-making in a fast-paced startup environment.

TECHNICAL SKILLS

Languages & Query:	Python, SQL (MySQL / MSSQL)
Data Analysis:	Exploratory Data Analysis (EDA), Statistical Analysis, Data Cleaning & Validation, Data Transformation, KPI Tracking
Visualization & BI:	Power BI, Microsoft Excel (Pivot Tables, Charts), Dashboard Development, Business Intelligence Reporting
Tools & Platforms:	Power Query, Git, GitHub, VS Code, Google Sheets
Soft Skills:	Analytical Thinking, Problem Solving, Critical Thinking, Communication, Detail-Oriented

PROFESSIONAL EXPERIENCE

Data Analytics Intern | Cod-Soft *Summer Internship*

- Collected, cleaned, and organized datasets from multiple sources to ensure data quality and readiness for analysis.
- Performed exploratory data analysis (EDA) to identify patterns, trends, and actionable business insights.
- Developed data visualizations and interactive dashboards to communicate findings effectively to stakeholders.
- Assisted in generating and maintaining analytical reports to support data-driven decision-making.
- Collaborated with cross-functional teams to understand data requirements and deliver analytical support.
- Evaluated data quality and proposed process improvements to enhance reporting accuracy.

PROJECTS

Sales Performance Analytics Dashboard | *Power BI*

- Built interactive dashboards to track sales KPIs and performance metrics for business decision-making.
- Performed data cleaning and transformation using Power Query to ensure data accuracy and reliability.
- Conducted exploratory data analysis to uncover trends and patterns, reducing manual report time.
- Created automated reports enabling stakeholders to monitor business performance in real time.

Retail Sales MIS Dashboard | *Microsoft Excel*

- Developed dynamic MIS dashboards to monitor and analyze monthly sales performance across product lines.
- Used pivot tables and advanced charts to analyze key performance indicators and present findings clearly.
- Conducted variance analysis to identify performance gaps and provide data-backed recommendations.

Automobile Price Prediction | *Python*

- Performed comprehensive EDA using Python (Pandas, Matplotlib, Seaborn) to identify key pricing factors.
- Cleaned and pre-processed raw datasets, handling missing values and outliers for predictive modelling.
- Built and evaluated regression models to predict automobile prices with documented insights.

EDUCATION

Bachelor of Computer Applications (BCA) *July 2023*

CSMU | CGPA: 7.86

CERTIFICATIONS & TRAINING

- Masters in Data Software Engineering — IT Vedant (Oct 2023 – Jan 2025)
- Python Programming — Kaggle
- Data Analytics Job Simulation — Deloitte
- AI Fundamentals - IBM
